## INTRODUCTION

---

The Institute of Commonwealth Studies' **Register of Commonwealth Research** is a list of higher degree theses conducted at UK Universities and relating to the Commonwealth of Nations, its member countries, and the former British Empire. The **Register** has been maintained since 1949 and covers research both in progress and completed; its retrospective coverage extends back to the 1920s.

The **Register** was originally compiled as a card catalogue. Since the early 1990s new data have been entered on to an electronic database, and conversion of the card catalogues is nearing completion.

From the data held the Institute compiles and publishes ***Theses in progress in Commonwealth studies*** as a snapshot of current research on the Commonwealth and Empire in Britain.

This edition of ***Theses in Progress in Commonwealth studies*** contains titles believed to be in progress at the end of 2004, and supersedes all previous editions. This issue follows directly from the 2003 edition. Starting with 2003, ***Theses in Progress in Commonwealth Studies*** is available online from the Institute of Commonwealth Studies website, at:  
<http://www.sas.ac.uk/commonwealthstudies/tip.htm>

The **Register**, and ***Theses in Progress***, are compiled and maintained as a source of current and past research on the Commonwealth, and also as a point of contact between candidates for higher degrees in British universities. Included in this edition is an announcement from the Commonwealth Scholarship Commission, regarding the creation of Professional Networks to encourage communication on themes of relevance across the Commonwealth. These Networks are open to past and current Commonwealth Scholars, and to anyone with an interest in the respective fields.

### Coverage

Commonwealth studies has been defined as study of the Commonwealth of Nations; the former British Empire and their member countries together with countries formerly under British protection. The exceptions are Great Britain herself, and the United States. A list of countries appears as an Appendix to this publication on page 100.

Subject coverage is primarily in the fields of history, politics, sociology, anthropology, economics, geography, literature, language and religion. The subjects of education, medicine, law, science and technology are included on a selective basis.

Coverage is of theses for higher degrees presented to UK universities. Dissertations submitted for the MA degree and non degree topics are excluded.

### Sources of information

Data for the register are obtained from a variety of sources. Printed sources include:

University of Cambridge. **List of graduate students**  
University of Oxford. **Postgraduate Students**  
Aslib. **Index to theses**  
**British national bibliography for report literature**

together with university annual reports, web sites and a variety of other sources.

The Commonwealth Scholarship Commission has supplied details of Commonwealth Scholars studying in the United Kingdom. Commonwealth Scholars are identified in the list by "(CS)" after the author's name. The Commission administers grants to Commonwealth citizens outside the UK, to fund postgraduate study at a UK university. More details on the Commission can be found on their web page at:  
<http://www.csfp-online.org/hostcountries/uk/>

However, the primary source of information arises out of the correspondence conducted with University Registrars and academic supervisors throughout Britain.

The contribution made by these individuals and their departmental secretaries is enormous; the Institute is profoundly grateful for their assistance. The universities who contributed to this compilation are listed as Appendix 2, page 102.

In addition, a number of students submitted personal returns. Apart from the above many other respondents replied with "nil" returns and to them also thanks are recorded.

### **Completed theses**

This list does not include theses known to have been completed. Details of these are available in the full **Register of Commonwealth research**. This will eventually be available online. In the meantime, enquiries are welcome.

### **Data Protection Act 1988**

The Institute's **Register of Commonwealth research** holds data supplied, including contact details, within the provisions of the Data Protection Act 1988. Data are maintained in an electronic format and will, eventually, be placed on the web with open access. Email addresses are specifically excluded. The dissemination of research data is deemed to have a legitimate purpose and the implied consent of candidates is assumed to be granted. However, individuals may apply to the editor to have information removed or amended.

The Institute will take all reasonable care to ensure that the information held is accurate but cannot be held responsible for errors or the use made of the data downloaded from the web.

### **Errors and omissions**

The compilation of this list has relied on the co-operation of many persons but it is recognised that it may contain errors, inaccuracies and omissions. Notification of these would be most welcome.

# COMMONWEALTH SCHOLARSHIP COMMISSION PROFESSIONAL NETWORKS

The Commonwealth Scholarship Commission in the United Kingdom is a non-departmental public body, established by Parliament to administer the British contribution to the Commonwealth Scholarship and Fellowship Plan. Our new programme of professional networks is a major part of our long-term strategy to maintain contact with former Commonwealth Scholars and Fellows, both those who have studied in the United Kingdom and those who have studied elsewhere.

The first three networks were launched in November 2004, in the areas of *Public Health, Education and Governance, Civil Society and Community Development*. Last month we were pleased to launch a fourth network, in the area of *Environment*, and hope to launch several more over the coming months. So far network activity has focussed on the distribution of quarterly E-newsletters to registered members as well as the electronic distribution of occasional items of interest. Several network members have also written with news of their work, activities and events in the various fields and we encourage others to do so. We have also held two linked events in the UK in the fields of Public Health and Governance. Both events were mainly attended by current scholars, although we were pleased to be able to sponsor a former Commonwealth Scholar from Dominica to attend the Governance event at the ICS in London, thanks to the generosity of the Commonwealth Foundation. We would hope that such events would be duplicated in other areas of the Commonwealth as the networks grow in strength.

Current or former Commonwealth Scholars and Fellows who would like to sign up to the networks should go to the relevant web-site address below (or follow the links on [www.csfp-online.org](http://www.csfp-online.org)) to register. The next editions of the e-newsletters for the four networks below will be sent by email at the beginning of August 2005. (Previous E-newsletters can be accessed in the respective archive sections.) Interested parties who are not former scholars are also welcome to join any one of the networks, if appropriate to their field of study or line of work. Simply enter 'Associate Member' in place of your reference number.

**MA in Understanding and Securing Human Rights 2005-2006**

**Institute of Commonwealth Studies**

This one year full-time (or two years part-time) programme is open to graduates of any discipline who seek training in human rights. This interdisciplinary course celebrated its 10<sup>th</sup> anniversary in 2004/05. Speakers come from international agencies and the academic community. Students also benefit from a one-day work placement each week with an international human rights agency. The MA seminars are small and friendly, and students are encouraged to develop their academic talents in a supportive environment.
