### Background

The Liberalism in the Americas Digital Archive was decommissioned in August 2018 and the content migrated to into the SAS-Space open access repository (<http://sas-space.sas.ac.uk/>) and the SAS Digital Archives.

In total the Liberalism in the Americas Digital Archive contains 927 individual items, 21GB of digital objects, including approx. 24700 high resolution page scans, PDF's and OCR transcriptions.

An entire ePrints XML metadata export from the original project database is available on SAS-Space, but this metadata has also been transformed using XSLT and migrated to fit into the fields available on SAS-Space and to make the items individually accessible and searchable on SAS-Space. Only the access files for each item (the OCR text file and the PDF files) have been migrated to SAS-Space. If you are looking for high-resolution page scans, the entire digital objects including access and high-resolution page scans, have been deposited in the SAS Digital Archive. You can request these by contacting the SAS-Space manager and providing the name, citation and identifier of the item you would like to retrieve.

Further information about the original website, it's classification schemes and a few screenshots are below. In addition, a Webarchive of the original ePrints website has been produced to capture the website as it appeared before it was shut down. This will allow you to browse and interact with the website items and demonstrates how the metadata was presented and used, but the Webarchive does not contain the digital files. The webarchive is a WARC format (.warc.gz) file and is also available to download and use from SAS-Space. To use this file, you will need a webarchive browsing application. At the time of writing, Webrecorder Player is a free, opensource desktop application which will allow you to browse the webarchive of the original project website. Information on how to download and use WARC format files in the Webrecorder Player is available on github at <https://github.com/webrecorder/webrecorderplayer-electron>

## The Original Website

The project was active between 2011 and 2013 resulting in the Liberalism in the Americas Digital Archive.

The screenshot shows the homepage of the Liberalism in the Americas Digital Archive. At the top, there is a navigation bar with links: Home, Browse by Year, Browse by Themes, Browse by Country/Region, and Browse by Author. Below this is a header section with the title "Liberalism in the Americas Digital Archive" and the logo of the Institute of Latin American Studies (ILAS), School of Advanced Study, University of London. The main content area includes a welcome message, a description of the archive's purpose, and a list of key themes. There are also links for "Search Repository", "Browse Repository", and "Repository Policies". A "BRITISH LIBRARY" logo is visible on the right side.

**Welcome to Liberalism in the Americas Digital Archive**

This is a unique scholarly resource of materials to help the UK and international academic community to trace the rise, consolidation and development of liberal ideology and practice in Latin America during the long nineteenth century. This has been achieved through the digitisation of key texts that shaped liberal thought and practice in the region since the late eighteenth century. Archival materials have been carefully selected – such as political pamphlets, judicial records, and political ephemera – to provide researchers, educators and policy makers around the world with the tools to develop historical studies that will enhance our understanding of the liberal tradition in Latin America.

The digital library was developed by the Institute for the Study of the Americas (now the Institute of Latin American Studies), School of Advanced Study, University of London. The project was managed by Dr Deborah Toner with research assistance from Dr Sarah Backhouse and consultancy advice from Dr Matthew Alan Hill and the University of London Computer Centre, which specialises in digital preservation. The resources that appear in this digital library were made available by, and digitised in collaboration with, the British Library, using materials from its extensive archives.

The Institute of Latin American Studies would like to thank in particular those whose advice and expertise made the development of this resource possible, particularly those who participated in country-specific steering groups and those who participated in a series of scholarly events during the creation of the library, many of which can be viewed online [here](#).

The digital library traces the development of liberal ideology and practice through key themes: church and state, economic development, political culture, women and gender, and race and ethnicity. The resources primarily focus on the cases of Argentina, Mexico, and Peru, c. 1780-1930.

We hope that you enjoy the benefits of using this digital archive and the insights it brings to this crucial period of political culture, national development, and intellectual exchange in Latin America.

We would like to thank our partners at the British Library, and Beth Cooper in particular, for their invaluable assistance in the identification, digitisation and processing of the images found in this repository.

Further enquiries can be sent to [jas@sas.ac.uk](mailto:jas@sas.ac.uk)

**Search Repository**  
Search the repository using a full range of fields.

**Browse Repository**

## Browse and Search Options

The Liberalism in the Americas Digital Archive made use of standard EPrint's search and browse options. The keywords have been retained in the SAS-Space archive so that it is still possible to replicate the search and browse options using the SAS-Space Advanced Search.

### How to Browse the Liberalism in the Americas Digital Archive on SAS-Space

1. Visit [sas-space.sas.ac.uk](http://sas-space.sas.ac.uk)
2. Click on 'browse' from the top menu
3. Select 'browse by collection'
4. Liberalism in the Americas Digital Archive can be found under the sub-title 'projects'
5. These can be browsed by the first letter of the author surname or no grouping. There is no 'item type' for this collection.

### How to Search the Liberalism in the Americas Digital Archive on SAS-Space

1. Visits [sas-space.sas.ac.uk](http://sas-space.sas.ac.uk)
2. Click on 'Advanced Search' from the search menu
3. Scroll down to 'Collections' and select 'Liberalism in the Americas Digital Archive' from the options (this can be found under the sub-heading 'projects').
4. You can now search the archive by creator (author) name, date, keywords, or title.

### How to access the original browse options

1. Undertake a search of the Liberalism in the Americas Digital Archive as outlined above.
2. Insert the browse term in the keyword search box. For example, a search for the 11 items related to the country Brazil can be found by writing 'brazil' in the keyword search box ([click here to view these results](#)). To search by more than one browse option use a coma to separate items. For example a search for the country Brazil with theme, 'Church and State' brings up one item ([click here to view these results](#)).
